

Touchstones Rochdale Technical Specification

General

The space is essentially a room with a flat floor and no fixed seating.

At one end there is a sink area with windows. To block out the light there are black serge curtains that pull across in front of that area.

Part way along one side of the room there is a fire exit corridor with a glass wall. This can be masked with a piece of black serge that can drop down.

Along the sides of the rest of the room are a mixture of cupboards and panels that again can be masked with drop down blacks.

The doors to the audience entrance have glass windows with roll down blinds.

Additional masking is required for full blackouts.

Height to ceiling = 4.25m

Height to lighting bars = 3.57m

Height to underside of projector = 2.96m

Lighting and sound control equipment is housed in a wheeled flightcased workstation and can be position where appropriate.

Lighting

In the main room there are 3 IWB's and several dips spread around the room. (Please see plan for positions and circuits).

12 x Par 64 with CP88 lamp.

2 x Strand SL 15/32 600w Profile.

7 x Coemar 500w Flood.

6 x Par 36 Pinspot 30w.

Limited TRS.

Total of 24 dimmable circuits each with 2 ways via 3 x Strand Act Dimmers (located in the next room through the sliding panels).

Zero 88 Alcora LX Desk with analogue cable to dimmers 4.8m in length. This will give just enough length to locate by the door in the panels and see through to the performance area. Alternatively the LX desk can plug in at the other end of the room by the window/sink area.

Sound

Allen & Heath Mix Wizard MZ3 16:2 Mixing Desk.

4 x Skytec 250w Speakers (Fixed to lighting bars).

1 x Inter-M R500 Plus Reference Amplifier.

1 x Inter-M L1400 Amplifier.

Daewoo Video/CD/DVD Player.

2 x Trantec S3:2 Radio mic systems including lapel mics.

1 x Shure PGX4 Radio mic system with SM58 handheld mic.

1 x Shure PGX2 Radio Mic System with SM58 handheld mic.

4 x Shure SM58 handheld mics.

1 x Sony Mini Disc MDS-JE480.

1 x TEAC Twin Cassette Deck W-790R.

1 x Behringer DSP1124P Digital 24-Bit Feedback Suppressor/Parametric Equalizer.

Additional sound equipment stored in cupboard

1 x 30m Multi 16/4.

2 x EV SX 200 Speakers 300w.

1 x Studio Master Powerhouse Horizon Mixing Desk.

AV

There is a retractable projection screen 2.45m wide x 1.86 drop (see plan).

Optoma Projector fixed to ceiling.

AV point in cupboard along side wall.
